On June 17, 2008, I attempted to conduct an aerial detection survey at Andrews Air Force Base. Due to restrictions imposed by air traffic controllers, I was unable to get a complete view of your site. Only the western portion of the base was surveyed. No defoliation was detected in the area surveyed.

If you anticipate requesting either financial or technical assistance for gypsy moth control in 2009, please contact Brad Onken (304) 285-1546 or me (304) 285-1555 before August 22, 2008.

Please contact me at the above number if you have any questions regarding this aerial survey letter.
